BIODATA ESSAY

Dr. Mellanie Didier is a proud UWI alumnus.

She completed a Fellowship at the Royal Liverpool University Hospital (an IAEA project) in Nuclear Medicine (NM) and is the current Director of newly opened NM Department at the UHWI.

She has a keen interest in Thyroid NM imaging and treatment, Osteoporosis imaging and Prostate Cancer NM imaging.

With her mixed heritage which spans from the Blue Mountains to the twin peaks of the Pitons, she is honoured to continue the legacy of the practice of Medicine set by her Parents.
